FOREWORD

This report is one of a series of provincial reports on the results of the 1980 Census of Population and Housing conducted on May 1, 1980.

Demographic data presented herein consist of population distributions according to age, sex, marital status, highest grade completed and literacy. Other bases as gainful occupation, industry and migration are included likewise.

In the other aspect of the census, the following housing characteristics are considered: type of building, structural characteristics, floor area, type of tenure, use and source of water supply, lighting, type of toilet facilities, kind of cooking fuel used and appliances.

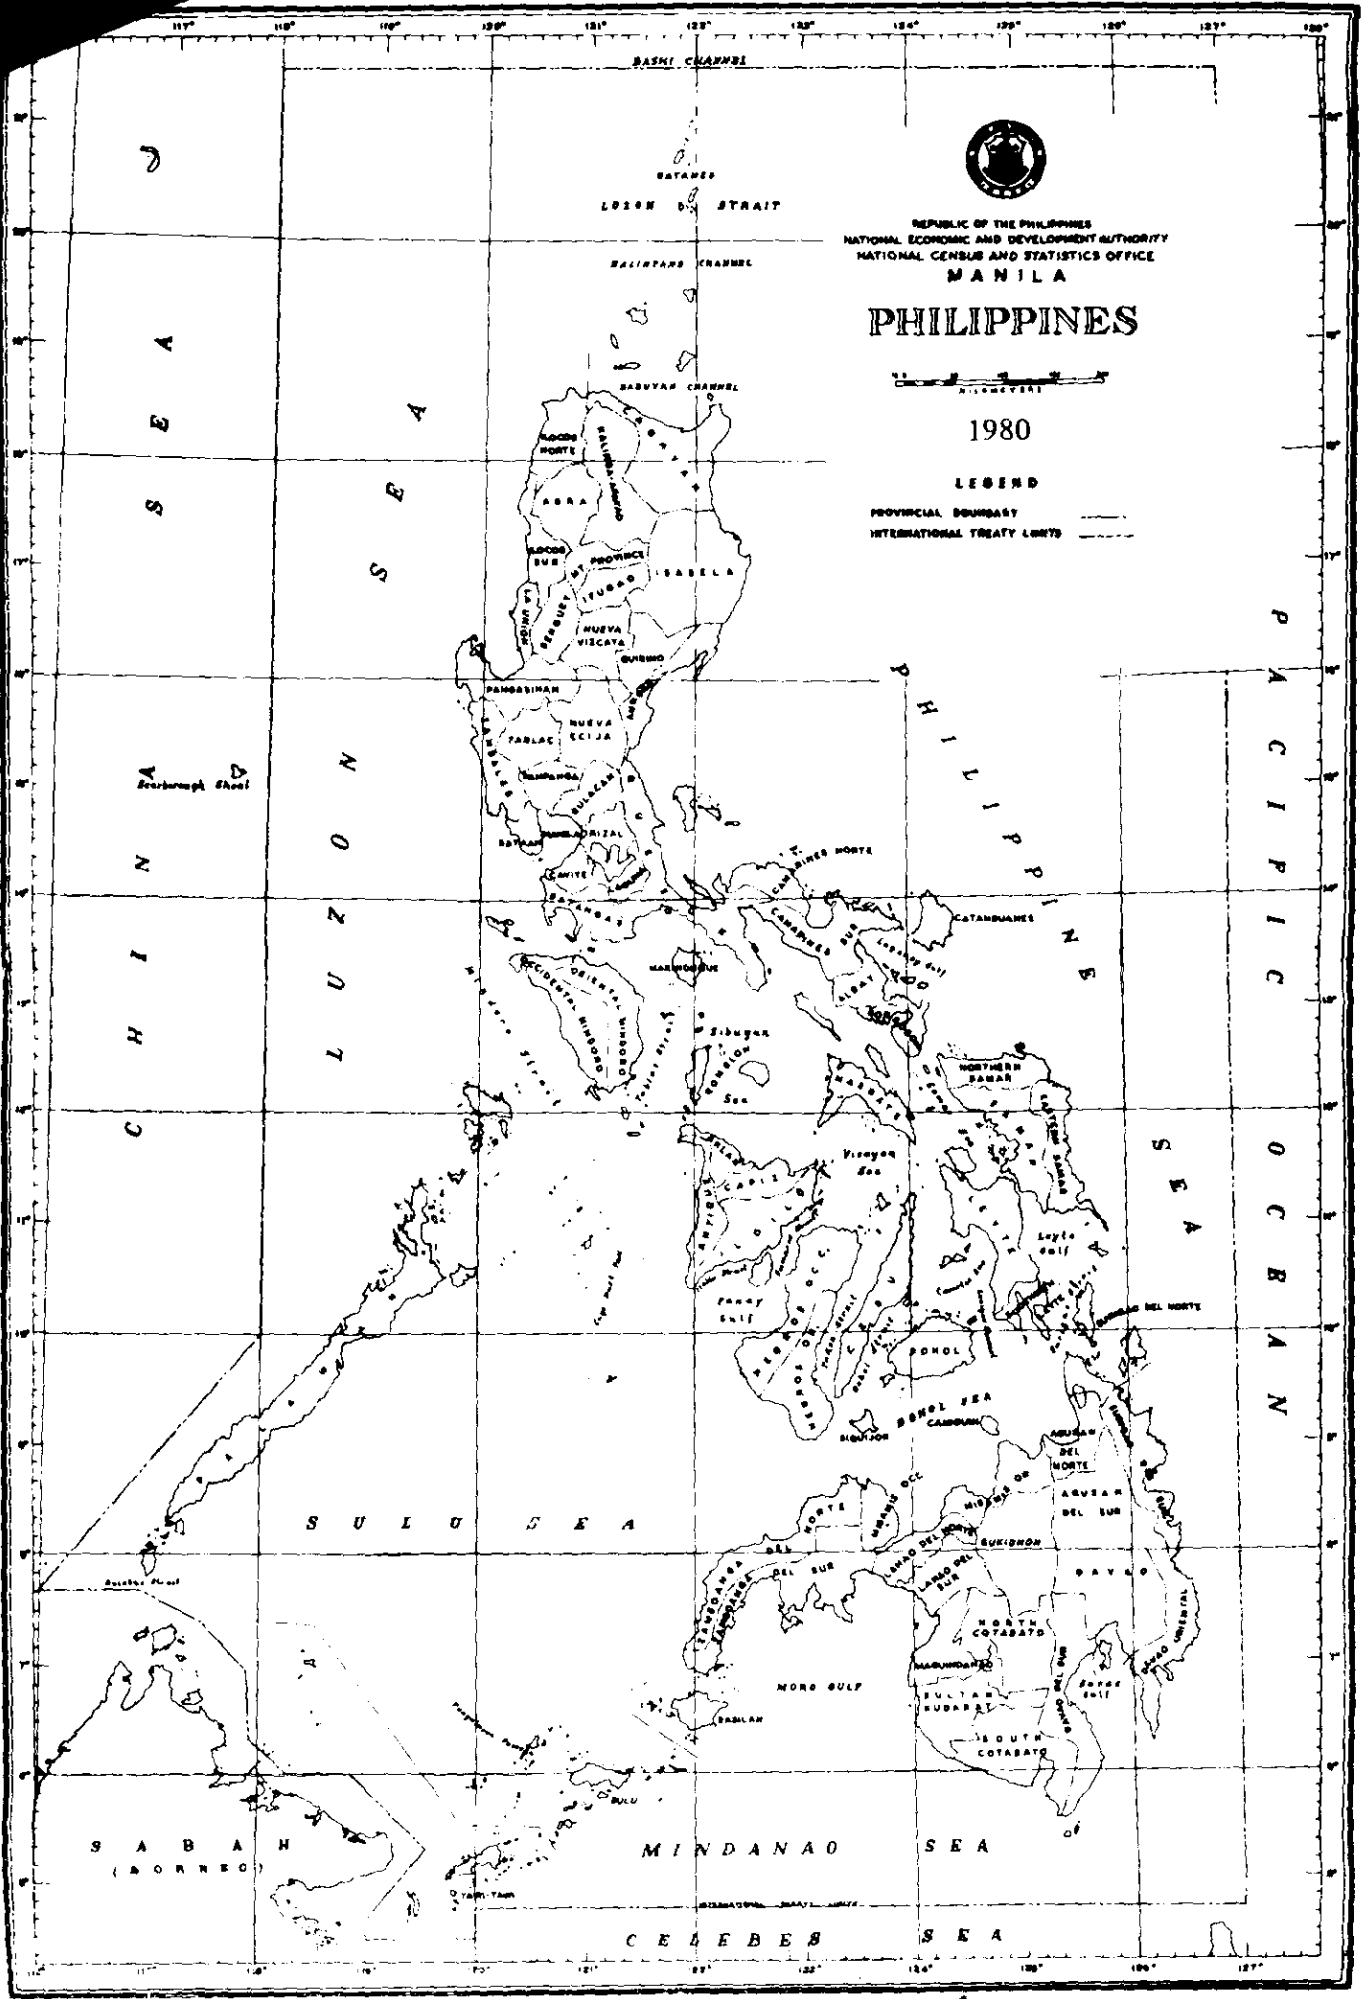

Subsequent issues will be the National Summary (Volume II) containing summary data on the final provincial reports and the Special Volume on National Capital Region (Metro Manila Area) which will cover data on the social, economic and demographic characteristics of the region.

Grateful acknowledgment is due the National Census Coordinating Board, government agencies, committees and the local coordinating boards for their invaluable assistance and cooperation.

TITO A. MIJARES

Explanatory Text

GENERAL

INTRODUCTION

The National Census and Statistics Office conducted in May 1980, the 1980 Census of Population and Housing. This type of Census was also undertaken in May 1970. In May 1975 the Census of Population was taken as Phase I of the 1975 Integrated Census of the Population and Its Economic Activities. This nationwide undertaking was designed to obtain comprehensive data on the size, distribution, structure, change and socio-economic characteristics of the population and to take inventory of the housing accommodations, their geographic location, structural characteristics, available facilities, etc.

The population report contains data gathered from private households as well as collective households, while data on housing were collected from private households only.

It should be emphasized at this point that a complete enumeration of all households throughout the country was made but only sample household questionnaires representing 20 percent of the listed households were processed and the data published in this volume. In so doing, however, the total population count by barangay, male and female, obtained from the listing sheet taken simultaneously during the enumeration was maintained in computing the weights or expansion factors. It should also be noted that data on Tables 1 to 4 of the population tables refer to total population, that is, the population of the private households plus the collective households while Tables 5 to 10 cover exclusively the private household population.

Pursuant to the provision of Batas Pambansa Bilang 72, a final count of the population, by sex at barangay level was submitted to the President and was approved under Proclamation No. 2170 dated March 12, 1982. This report was published separately in 74 provincial volumes.

AUTHORITY FOR THE 1980 CENSUS

Under Commonwealth Act No. 591, the National Census and Statistics Office is authorized "to prepare for and undertake all censuses of population, agriculture, industry and commerce."

It may be mentioned in this regard that sometime in February 1980 Parliamentary Bill No. 809 was presented at the Batasang Pambansa, providing for the taking of an integrated census every ten years beginning 1980, with May 1 of every census year as the reference date. This bill was approved into Batas Pambansa Bilang 72 on June 11, 1980, more than one month after the start of enumeration.

INTER-AGENCY PARTICIPATION

The expertise and technical advice of the National Economic and Development Authority Inter-Agency Committee on Population and Vital Statistics and its Technical Working Group on 1980 Census of Population and Housing played a vital role in the successful undertaking of the census.

The Committee's main function was to review the questionnaire, methodologies, concept, tabulation and other related aspects of the census in the production of data and development of systems that would produce more reliable and accurate result. It had for its chairman the Dean of the University of the Philippines Population Institute (UPPI) and for its members, one representative each from the Ministries of Human Settlements (MHS), National Defense (MND), Education and Culture (MEC), Health (MOH) and Local

EXPLANATORY TEXT

Government and Community Development (MLGCD); the Commission on Population (POPCOM); National Economic and Development Authority (NEDA); and two representatives from the National Census and Statistics Office (NCSO). The Technical Working Group (TWG) for the 1980 Census of Population and Housing was headed by the Chief of the National Census and Household Surveys Department of NCSO and the members were representatives from the MHS, EPRS-NEDA, SCO-NEDA, POPCOM, UPPI, MOH, MEC, and the National Housing Authority (NHA).

Recommendations were likewise solicited from other government agencies for questions that should possibly be included in the population and housing portions in order to fill their data needs.

As early as August 1977, an NCSO Technical Committee for censuses was created. Ranking officials of the National Census and Statistics Office comprised the committee, with the Assistant Executive Director as Chairman, the Chief of the National Census and Household Surveys Department (NCHSD) as Vice-Chairman and Heads of six other departments and staff offices as members.

The committee coordinated with the Inter-Agency Committee and TWG of the NEDA on the technical aspect of the census and rendered a monthly progress report to the Executive Director. It provided the overall direction of the activities of the different subcommittees on census. The two subcommittees created, the Sub-Committee on Population and Housing Census and the Sub-Committee on Operations and Logistics Support, were directly charged with the preparatory work for the census undertaking.

CENSUS BOARDS

A systematized involvement of government agencies and instrumentalities was made possible largely through the concerted efforts of the members of the National Census Coordinating Board (NCCB) and the Provincial, City and Municipal Census Boards. The national board was created by NEDA Memorandum Order No. 4-80, dated April, 1980 and the local boards, by Memo Order No. 5-80, dated April 1, 1980, by virtue of the powers vested in the Minister of Economic Planning under Section 3 of Presidential Decree No. 1200.

The NCCB was headed by the Minister of Economic Planning as Chairman with the Executive Director as Executive Officer. Named as members were the Ministers of Agriculture, Budget, Education and Culture, Finance, Human Settlements, Public Works, Justice, Labor, Local Government and Community Development, National Defense, Natural Resources, Public Highways, Public Information and Transportation and Communication. Rules and regulations necessary for the successful undertaking of the census were issued by the Board.

At the local government level, similar functions were carried out by the Provincial City and Municipal Census Boards. The Provincial Governor headed the Provincial Census Board while the Division Superintendent of Schools was Vice-chairman. Members were the Highway District Engineer, Provincial Auditor, Provincial Commander of the Philippine Constabulary, the Provincial Development Officer and the Provincial Agriculturist. The City Census Board was composed of the City Mayor as Chairman; City Superintendent of Schools, Vice-chairman; and the City Engineer, City Assessor and City Development Officer, members. Finally, the Municipal Census Board had for its Chairman the Municipal Mayor and ably assisted by the District Supervisor as Vice-chairman. The members were the Municipal Agriculturist, Station Commander, Municipal Treasurer and the Municipal Development Officer.

EXPLANATORY TEXT

For each of these local census boards, the Provincial Census Officer, City Census Officer and the Municipal Census Officer were designated Executive Officer of their respective Board.

CENSUS ORGANIZATION

The overall direction and instructions for the census undertaking emanated from the Executive Director of the National Census and Statistics Office or in his absence, the Assistant Executive Director.

Assisted by the Task Force from the Central Office and in coordination with the local census boards, the Regional Census Officers and the Provincial Census Officers directly supervised the field operations in their respective areas. The services of District Supervisors, Head Teachers and elementary school teachers from public schools were utilized as City/Municipal Census Supervisors, Team Supervisors and Enumerators in that order.

During the field operations, the 1980 Census Operations Center under the overall supervision of the National Census and Household Surveys Department Chief, was the operating body that monitored the overall operations. Lending support to the center were the Administrative and Fiscal Services Staff.

METHOD OF ENUMERATION AND USE OF SAMPLING

The household was used as the enumeration unit and a complete listing of dwelling units, including vacant ones, was done.

A combination of complete enumeration and sampling was adopted. While all households were asked on the count of the population and housing characteristics, only twenty percent (20%) were asked on other characteristics. The selection of sample households was done systematically with a random start from a listing of households which was prepared simultaneously with the enumeration.

Using PH Form 2 (Common Private Household Questionnaire) and with an 80 percent coverage, the items asked on population were household membership, relationship to head, line number of mother, sex, date of birth, age as of last birthday and marital status. For the housing items, the type of building and the construction materials of roof and outer walls, number of rooms, floor area of the dwelling unit and the year the building was built were asked.

In addition to the population and housing items just mentioned, additional information were asked using PH Form 3 (Sample Private Household Questionnaire) from the 20 percent samples such as language or dialect generally spoken at home, citizenship, usual residence of mother at person's birth, residence of person in 1975, ability to speak Pilipino and English, school attendance, highest grade completed, literacy, economic activity of the person, place of schooling or work, fertility, nature of occupancy of the dwelling unit and housing facilities and conveniences.

Collective households were enumerated using PH Form 4, where the information asked were the same as those in PH Form 2, excluding housing items.

PLACE WHERE ENUMERATED

All persons were enumerated in their usual place of residence, which is the geographic place (street, barangay, sitio, municipality or province) where the enumerated person usually resides. As a rule, it is the place where he usually sleeps; therefore, it may be the same as or different from the place where he was found at the time of the census.

EXPLANATORY TEXT

POST ENUMERATION SURVEY

Originally the plan was to conduct a Post Enumeration Survey covering the whole country. For lack of funds the survey had to be confined to Metro Manila. Its purpose was to determine the extent of underenumeration or overenumeration in the 1980 Census of Population and Housing.

A sample of 132 barangays was selected. However, in 59 barangays which were divided into two or more enumeration areas (EAs), an enumeration area was chosen as sample.

A complete listing was made of households in the sample barangays/EAs using PH Form 1-B. Twenty percent of these households were selected as sample households and interviewed using PH Form 2, which was the same questionnaire used for non-sample households during the main enumeration. The housing portion of this form was disregarded.

CONTENT AND COVERAGE OF THE PUBLICATION

In this publication, the population and households were described according to the respective items listed below:

Population Items	Housing Items
Age	Type of Building
Sex	Type of Occupancy
Marital Status	Construction Materials of Roof and Outer Walls
Highest Grade Completed	Year Built
Literacy	Floor Area of Dwelling Unit
Language/Dialect Spoken in the Household	Tenure of Owner-Occupant with Respect to the Land
Gainful and Non-Gainful Occupation	Kind of Lighting Facilities
Major and Minor Industry	Use and Source of Water Supply
Migration	Type of Toilet Facilities
	Kind of Cooking Fuel
	Household Appliances

The above items are presented in the ten population tables and nine housing tables of this report.

Except for figures on total population and sex, all other characteristics were based on a 20 percent sample.

Aside from these published tables, 10 other tables on the above characteristics plus 6 statistical tables dealing on ever-married women 15 years old and over are also available to statistical users.

DEFINITION OF TERMS AND CONCEPTS

I – POPULATION

BARANGAY

A barangay is the smallest political unit in the country and generally its enumeration is

EXPLANATORY TEXT

assigned to one enumerator. For enumeration purposes, a large barangay is usually split into parts and each part is called an enumeration area (EA).

ENUMERATION AREA

An enumeration area (EA) is a delineated area assigned to one enumerator, usually consisting of about 300 households. A barangay or part of a barangay may have been designated as an enumeration area.

URBAN AND RURAL AREAS

The same concepts used in the 1970 and the 1975 Censuses were followed in classifying areas as urban. According to these concepts, urbanized areas consist of:

1. In their entirety, all cities and municipalities having a population density of at least 1,000 persons per square kilometer.
2. Poblaciones or central districts of municipalities and cities which have a population density of at least 500 persons per square kilometer.
3. Poblaciones or central districts (not included in 1 and 2), regardless of the population size, which have the following:
 - a. Street pattern, i.e., network of streets in either parallel or right-angle orientation;
 - b. At least six establishments (commercial, manufacturing, recreational and/or personal services); and
 - c. At least three of the following:
 - 1) A town hall, church or chapel with religious services at least once a month;
 - 2) A public plaza, park or cemetery;
 - 3) A market place or building where trading activities are carried on at least once a week;
 - 4) A public building like a school, hospital, puericulture and health center or library.
4. Barangays having at least 1,000 inhabitants which meet the conditions set forth in 3 above, and where the occupation of the inhabitants is predominantly non-farming or fishing.

All areas not falling under any of the above classifications are considered rural.

PERSONS ENUMERATED IN A PRIVATE HOUSEHOLD

The following were counted and enumerated as members of the household:

1. Persons whose usual place of residence is the place where the household lives and present at the time of visit of the enumerator, except those born after 12:01 A.M., May 1, 1980;
2. Persons whose usual residence is the place where the enumerated household lives, but temporarily away at the time of enumeration, such as:
 - a. persons temporarily away on vacation, business or pleasure trip or any other purpose in the Philippines who are expected to be back within six months,

EXPLANATORY TEXT

- or within one year, if abroad;
 - b. students who usually go home to their respective households at least once a week;
 - c. persons working elsewhere who usually go home to their respective households at least once a week;
 - d. patients confined in hospitals for not more than six months at the time of enumeration of the household, except those confined (1) as inmates (not patients in wards for temporary confinement) in tuberculosis pavilions; (2) in mental hospitals; (3) in leprosaria or leper colonies; and (4) in rehabilitation centers for drug addicts;
 - e. trainees in the Armed Forces of the Philippines, if their training is not more than six months;
 - f. convicts and detainees in provincial or municipal/city jails or military camps, who have been confined for not more than 6 months at the time of enumeration of the household, except those who have been sentenced for more than 6 months (including those whose sentence is on appeal), even though just confined; and
 - g. officers and crew members of coastal, interisland, or fishing vessels; officers and crew members of ocean-going vessels who usually go home to their household at least once a year.
3. Boarders of the household who are working, looking for work or studying, and who do not go home at least once a week;
 4. Employees of household-operated enterprises who eat and sleep with the household and who do not go home at least once a week;
 5. Persons (other than those in "3" and "4") whose usual place of residence is elsewhere, but who have been away from their usual place of residence for more than 6 months;
 6. Members of the Armed Forces of the Philippines including draftees, sleeping most of the nights with the household, except those who only board or lodge with the household and who usually go home at least once a week; in such a case, they will be enumerated in their own household;
 7. Persons found in the household who have no usual place of residence elsewhere;
 8. Persons found in the household who are not certain of being enumerated elsewhere;
 9. Persons who consider the dwelling unit of the household as their usual place of residence but are living within the premises of a foreign embassy, ministry, legation or consulate, including non-Filipino employees who have been residents of the Philippines before such employment;
 10. Citizens of foreign countries and Filipinos (balikbayan) who have resided or expect to reside in the Philippines for more than one year from arrival;
 11. Persons who sleep in the same dwelling unit but may not be able to take all or some of their meals with the household because of the nature of their work or other similar reason (they take their meals at place of work, etc.), should be considered as part of the household; and
 12. A household member who is alive as of 12:01 A.M., May 1, 1980, but dies prior to the enumeration of the household.

EXPLANATORY TEXT

PERSONS TOTALLY EXCLUDED FROM THE ENUMERATION

Totally excluded from the population count of the Philippines were:

1. Foreign ambassadors, ministers, consuls or other diplomatic representatives, and members of their households (except Filipino employees and non-Filipino employees who had been residents of the Philippines prior to said employment);
2. Citizens of foreign countries living within the premises of an embassy, legation, chancellory or consulate;
3. Officers and enlisted men of U.S. Military or Naval Forces and non-Filipino members of their households, irrespective of residence; foreigners who are civilian employees in U.S. military or naval stations and member of their families living within the premises of said stations or reservation; (Note: for foreigners who are civilian employees of said stations living outside the station or reservation, see Item 5).
4. Citizens of foreign countries who are Chiefs and officials of international organizations like UN, ILO or USAID, who are subject to reassignment to other countries after their tour of duty in the Philippines, and members of their families;
5. Citizens of foreign countries together with non-Filipino members of their families, who are students or who are employed, or have business in the Philippines and have been in the Philippines or expect to stay in the country for one year or less from arrival;
6. Citizens of foreign countries and Filipinos with usual place of residence in a foreign country, who are visiting in the Philippines and expect to stay in the country for one year or less from arrival (e.g. a *balikbayan* who will return to his usual place of residence abroad after a short vacation or visit in the Philippines);
7. Citizens of foreign countries in refugee camps/vessels; and
8. Residents of the Philippines on vacation, pleasure or business trip, etc. abroad, who have been away or expected to be away from the Philippines for more than one year from departure.

USUAL PLACE OF RESIDENCE

The term refers to the geographic place (street, sitio, barrio/barangay, municipality or province) where the enumerated person usually resides. As a rule, it is the place where he sleeps most of the time; hence, it may be the same as or different from the place where he was found at the time of the census.

HOUSEHOLD

A household usually consists of a group of persons who sleep in the same dwelling unit and have common arrangements for the preparation and consumption of food. A person who lives alone is considered as one separate household. Although in most cases a household consists of a related family group, some household members may have no relationship to the central group. Boarders and servants, for instance are counted as part of a particular household if they take their meals with the household and sleep in the same dwelling unit. Persons who sleep with a household but individually cook their meals or eat elsewhere are each considered as single-person household.

EXPLANATORY TEXT

Three generations may be living in one dwelling unit. If they are divided into two or more groups whose eating arrangements are independent from each other, each group is counted as a separate household.

PERSONS NOT LIVING IN HOUSEHOLD

Falling under this category are persons living in collective living quarters such as welfare institutions (orphanages and homes for the aged or infirm); penal and corrective institutions (jails, national penitentiary, and reformatory institutions); hospitals, sanatoria, leprosaria, and nurses homes; dormitories and boarding schools; lodging houses such as hotels, tourist homes and the like; military camps and others.

Most of these institutions house inmates for whom care or custody is provided by resident staff members, or persons residing in group quarters or in housing units on the institutional grounds.

Private families living within such institutions, however, are excluded from the classification, as well as persons (employees, students, etc.) who go home to their families on weekends or days off. Persons found in lodging houses, but who are on vacation or business trips and whose absence from home does not exceed six months on the day of enumeration, are likewise not counted as part of the institutional population.

RESPONDENT

A respondent is any responsible adult member of the household who furnished the information or answers to questions during the interview.

LANGUAGE/DIALECT GENERALLY SPOKEN IN THE HOUSEHOLD

This refers to the language or dialect spoken most of the time by members of the household. In cases where two or more languages/dialects are spoken by household members, the one most often used in conversations among members of the family of the head when most of them are gathered together is considered as the language/dialect generally spoken in the household.

HEAD OF HOUSEHOLD

The person responsible for the care and organization of the household is generally considered as the head of the household. He usually provides the chief source of income for the household.

In the case of a household consisting of two or more unrelated persons sharing a dwelling unit and sharing the same cooking facilities and meals, the head is usually the eldest male or female in the group regarded as such by the other members.

RELATIONSHIP TO HEAD OF HOUSEHOLD

This determines how each household member is related to the head, who is usually the husband or father, although in his absence or if incapacitated, the wife may be designated as head.

1. Spouse – a woman/man married to and living with the head. This includes legal marriages as well as common-law relationships.
2. Son/daughter – the head's own child, stepchild, or adopted child.

EXPLANATORY TEXT

3. Son-in-law/daughter-in-law – refers to a household member related to the head by marriage to his daughter or son.
4. Grandson/granddaughter – child of the son or daughter of the head.
5. Other relative – a household member related to the head by blood, marriage, or adoption. Father, mother, aunts, nephews, parents-in-law and cousins are examples.
6. Others – any person in the household who is usually a non-relative of the head. Boarders and servants fall under this category. Certain members of the household who are related to the head by blood or affinity, but are actually boarders or servants in the household, are classified under "Others".

For collective households and group quarters, the question on relationship refers to the person's relationship to the institution or establishment, and not to the person recorded as head.

AGE AND DATE OF BIRTH

Data on the age of the population were obtained by asking the respondent the month and year of birth and the age itself of the household member before May 1, 1980. To ensure accuracy, a conversion table on age before May 1, 1980 was prepared for the use of enumerators, editors/coders and verifiers.

MARITAL STATUS

This refers to the civil status of all persons 10 years old and over. A person in this age group is classified as single, married, widowed, separated or divorced, or civil status unknown, based on the following definitions:

- a. Single – If never been married.
- b. Married – Legally married or living consensually with husband/wife without benefit of a legal marriage. A person classified as "married" includes one who remarried after having been widowed, separated or divorced or one temporarily separated from spouse owing to the nature of work, illness or service in the Armed Forces.
- c. Widowed – A person whose spouse died and who has not remarried at the time of enumeration.
- d. Separated – If permanently separated from spouse either legally or otherwise, due to marital discord.
- e. Divorced – If bond of matrimony has been dissolved through a court decree and is therefore free to remarry.
- f. Unknown – If civil or marital status is either not known to the respondent, or the respondent himself refuses to reveal the marital status of such person.

CITIZENSHIP

Citizenship is defined as the legal nationality of a person. A citizen is a legal national of the country of the census; an alien is a non-national of the country.

LITERACY

A person is considered literate if he is able to read and write a simple message in any language or dialect.

EXPLANATORY TEXT

HIGHEST GRADE COMPLETED

This has reference to the specific grade or year completed in elementary school, high school, college or university, by persons 7 years of age and over. Academic degree holders are classified according to the title of the degree received or the major field of study undertaken.

USUAL OCCUPATION

This refers to the specific job or kind of work that a person, who works most of the year, is usually pursuing, or if unemployed at the time of enumeration, it is the kind of work he used to do most of the year. A person is considered as usually working most of the year if he works for at least 10 hours a week for 26 weeks either for pay in cash or in kind, for a fee or profit in own farm, business or establishment or practice of a profession and without pay on family farm or enterprise. This particular group of workers is referred to as gainful workers.

For persons who do not work most of the year, the usual occupation relates to the non-gainful activities they usually do most of the year. Among such persons are housekeepers, students, pensioners, retired and disabled. However, a person who is housekeeping or schooling and also works in a gainful activity was reported as gainfully employed, even if more time was spent housekeeping or studying, as the case may be.

INDUSTRY

Industry refers to the specific character and nature of business or industry or the place where the work is being performed in connection with the job or occupation reported for a person.

EVER-MARRIED WOMAN

This refers to a woman who has already entered married life. Marriage here may either be legal or consensual union. At the time of enumeration the ever-married woman may still be married, or already widowed, separated or divorced.

II – HOUSING

BUILDING

A building is any independent free-standing structure comprising one or more rooms or other spaces, covered by a roof and enclosed within external walls or dividing walls with adjacent building which usually extend from the foundation to the roof. It usually contains one or more rooms internally connected with one another. A building therefore, is any structure intended for dwelling, storage, factory, shelter or for some other useful purposes.

For purposes of the 1980 Census of Population and Housing, only the following buildings were listed and assigned building serial numbers:

- a. A house or any kind of building or shelter where people were actually living;
- b. A residential building (house, apartment or accesoría, condominium) that was vacant;

EXPLANATORY TEXT

- c. Hotel, motel, lodging house, dormitory or camp (construction, logging, mining, etc.) in operation;
- d. A commercial, office, industrial, agricultural or other kinds of buildings with one or more dwelling units (containing a kitchen/kitchen-dining room, living room and a bedroom, and with separate entrance) which were all vacant.

The different types of buildings are:

1. **Single house** – a complete structure intended for one household. It includes the so-called “nipa hut” or a small house that is built as a more or less permanent dwelling unit.
2. **Duplex** – a structure intended for two households, with complete living facilities for each. It is divided either vertically or horizontally into two separate dwelling units which are usually identical.
3. **Apartment/accesoria/condominium/row house**
 An apartment is a structure usually of several stories, made up of three or more independent entrances from internal halls or courts. It differs from an accesoria in that an apartment has one common entrance from the outside.
 An accesoria is usually a one or two-floor structure divided into three or more dwelling units, each dwelling unit having its own separate entrance from the outside. Another name for accesoria is row house.
 A condominium is usually a high-rise building where the dwelling units are owned individually but the land and other areas and facilities are owned in common.
4. **Improvised (barong-barong)** – a makeshift or roughly constructed house usually built with salvaged materials.
5. **Commercial/industrial/agricultural** – buildings not intended for human habitation but used as dwelling units at the time of the census.
 Commercial – a building used for transacting business or rendering professional services, such as a storage or an office building.
 Industrial – a building used for processing, assembling, fabricating, finishing, manufacturing or packaging operations, such as a factory or a plant.
 Agricultural – any structure used for agricultural purposes, such as a barn, warehouse, rice mill, etc.
6. **Other housing unit (natural shelter, boat, etc.)**
 This refers to living quarters which are not intended for human habitation nor located in permanent buildings but which are, nevertheless, used as living quarters at the time of the census. Caves, other natural shelters and mobile housing units such as trailer, barge, boat, etc., fall within this category.
7. **Hotel, lodging house, dormitory, etc.** – This group comprises permanent structures which provide lodging and/or meals on fee basis. Hotels, motels, inns, boarding houses, dormitories, pensions and lodging houses fall within this category.
8. **Institutional (hospital/convent/school dormitory/penal institution, etc.)** – a building intended for persons confined to receive medical, charitable, or other care treatment such as jails and penal colonies, and other buildings like convents, school dormitories, etc.
9. **Other collective living quarters** – any structure or shelter which does not fall under items 7 and 8. Included in this category are camps which are defined sets of

EXPLANATORY TEXT

premises originally intended for the temporary accommodation of persons with common activities or interests like military camps, and other camps established for the housing of workers in mining, agriculture, public works or other types of enterprises.

DWELLING UNIT

A dwelling unit is a separate and independent place of abode intended for habitation by one household, or one not intended for habitation but occupied as living quarters by a household at the time of the census.

Dwelling units counted included those that are occupied and those that are unoccupied.

CONSTRUCTION MATERIALS OF ROOF

The kinds of materials used are as follows:

1. Galvanized iron/aluminum
2. Tile/concrete/brick/stone
3. Asbestos
4. Cogon/nipa
5. Makeshift/salvaged materials
6. Others (anahaw, etc.)

CONSTRUCTION MATERIALS OF OUTER WALLS

The kinds of materials may be any of the following:

1. Galvanized iron/aluminum
2. Tile/concrete/brick/stone
3. Wood/plywood
4. Mixed tile/concrete/brick/stone and wood/plywood
5. Asbestos
6. Bamboo/sawali
7. Cogon/nipa
8. Makeshift/salvaged materials
9. Others (anahaw, etc.)

If the roof or outer walls are constructed of two or more materials the material most used was reported.

YEAR BUILDING WAS BUILT

This refers to the year when the extent of construction permitted occupancy for living purposes. The year reported was the particular year when the occupancy started or when the building was fit for occupancy even if not occupied.

NUMBER OF ROOMS IN THE DWELLING UNIT

A room is defined as a space in a dwelling unit or other living quarters enclosed by walls reaching from the floor to the ceiling or roof covering, or at least to a height of 1.8 meters which are of permanent or semi-permanent structure, of a size large enough to hold a bed for an adult or at least has an area of 3 square meters.

EXPLANATORY TEXT

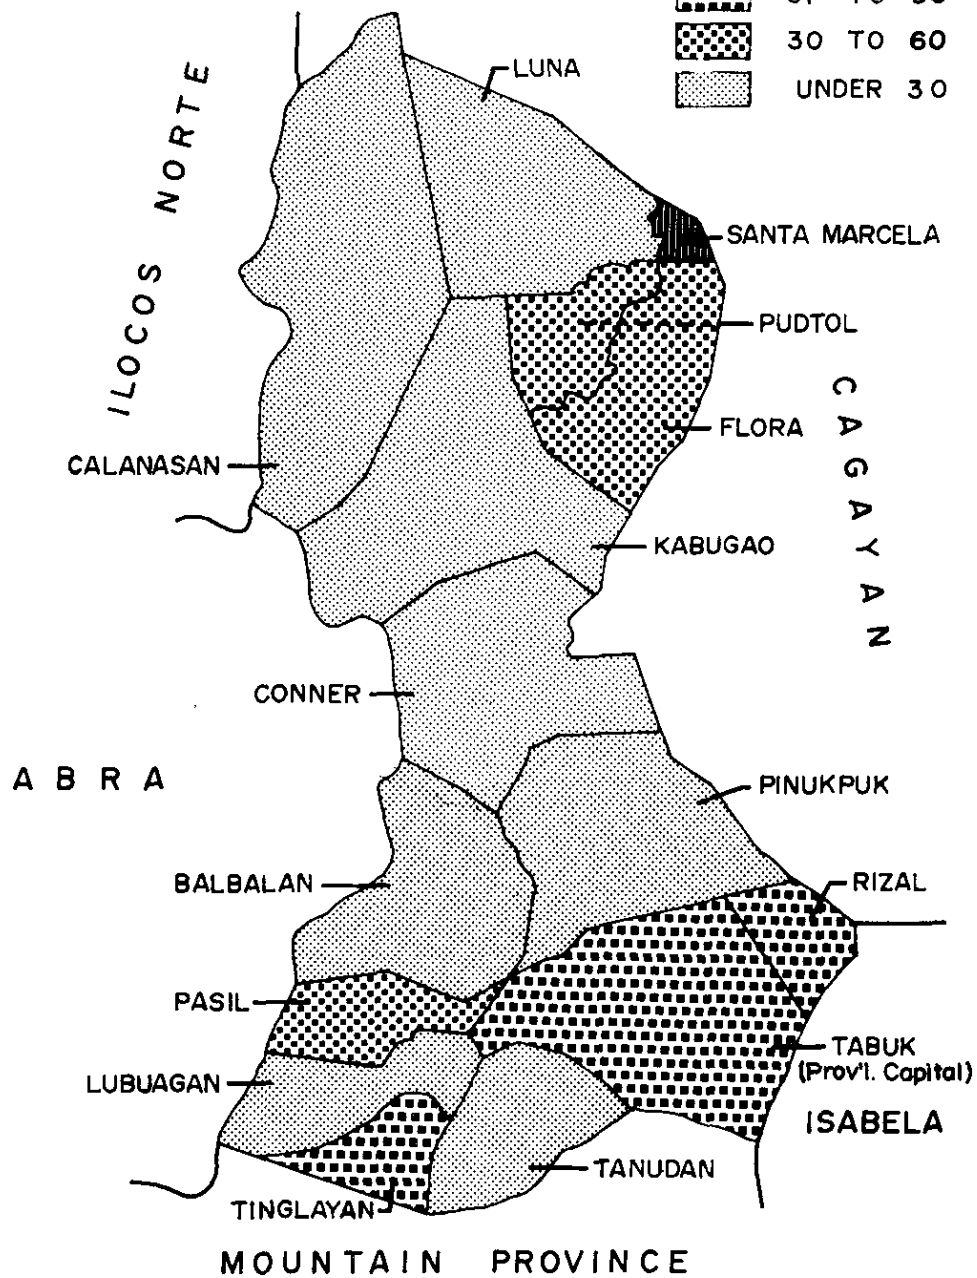

The total number of rooms reported included the bedrooms, dining room, living room, kitchen, roofed veranda, library or music room and other separate spaces used or intended for dwelling purposes, as long as they meet the criteria of walls and floor space. Passageways, lobbies, bathrooms and toilets or rooms used exclusively as store/shop/clinic/grains storage (nobody sleeps therein) were not counted as rooms even if they meet the criteria.

FLOOR AREA OF DWELLING UNIT

This refers to the space enclosed by the exterior walls of the dwelling unit, or the space measured inside the outer walls of the spaces that are counted as rooms. In case of several floors, the area of each floor in square meters was taken and added together to get the total floor area of the dwelling unit. Area of floor spaces that are not considered rooms such as bathroom, toilet, storeroom, passageway was excluded in determining the floor area.

POPULATION DENSITY OF
KALINGA-APAYAO PROVINCE
BY MUNICIPALITY: 1980

POPULATION DENSITY
PER SQUARE KILOMETER

Kalinga-Apayao: A Brief Analysis

Formerly part of Mountain Province, Kalinga-Apayao was created when the subprovinces of Kalinga and Apayao were merged on June 18, 1966 by virtue of Republic Act No. 4695. The province is bounded on the north by Ilocos Norte and Cagayan, on the east by Cagayan and Isabela, on the south by Mountain Province and on the west by Abra and Ilocos Norte.

Kalinga-Apayao is generally mountainous, with peaks ranging in height from 1,514 to 2,576 meters. Despite its high altitude and cold mountains, however, its scorching plains are the hottest in the country.

Composed of 16 municipalities in 1970 and 1975, the province now has 15 municipalities, with the return of the barangays comprising the former municipality of Quirino to their mother municipalities, Balbalan and Pinukpuk. Tabuk remains as the provincial capital.

POPULATION

In the 1980 census, the population of Kalinga-Apayao registered at 185,063 of which 94,506 were males and 90,557 were females. With a land area of 7,047.6 square kilometers, the province was peopled by 26.3 persons per square kilometer if the population was evenly distributed. Despite a steady increase in its population density – 19.3 in 1970, 23.2 in 1975, and 26.3 in 1980 – Kalinga-Apayao was one of the least populous of the 73 provinces in the country, ranking number 63 in population size, the same rank it held in 1975. Its annual geometric growth rate decelerated by 1.14 percentage points, from 3.68 percent in 1975 to 2.54 percent in 1980.

Although a considerable increase in the proportion of urban residents is noted between 1975 and 1980 (from 6.24% to 10.48%), majority of the population still reside in rural areas. Of the total population, 165,669 or 89.52 percent, remain rural dwellers and only 10.48 percent, urban dwellers.

Table A gives the urban and rural distribution of the population by sex for three censal years:

A BRIEF ANALYSIS

**TABLE A – URBAN-RURAL POPULATION BY SEX,
KALINGA-APAYAO: 1970, 1975 AND 1980**

Area Classification and Sex	1980		1975		1970	
	Number	Percent	Number	Percent	Number	Percent
Total	<u>185,063</u>	<u>100.00</u>	<u>163,225</u>	<u>100.00</u>	<u>136,249</u>	<u>100.00</u>
Male	94,506	51.07	83,489	51.15	68,541	50.30
Female	90,557	48.93	79,736	48.85	67,708	49.70
Urban	<u>19,394</u>	<u>10.48</u>	<u>10,178</u>	<u>6.24</u>	<u>9,947</u>	<u>7.30</u>
Male	9,919	5.36	5,154	3.16	4,979	3.65
Female	9,475	5.12	5,024	3.08	4,968	3.65
Rural	<u>165,669</u>	<u>89.52</u>	<u>153,047</u>	<u>93.76</u>	<u>126,302</u>	<u>92.70</u>
Male	84,587	45.71	78,335	47.99	63,562	46.65
Female	81,082	43.81	74,712	45.77	62,740	46.05

A BRIEF ANALYSIS

The sex ratio (number of males per 100 females) of the population decreased very slightly from 104.71 to 104.36, with the males still holding their predominance over the females. Both the urban and rural population demonstrated stability in terms of sex ratio of 104.69 and 104.32, respectively.

The rural male and female population from the group of 5 years of age to the 80 years old and above diminish as each group becomes older. A graph of the relationship results in a pyramid-like structure with the children below 5 years of age forming the broad base and the adults 80 years and above forming the apex (Figure 1).

AGE COMPOSITION

Although showing a downward trend, the proportion of persons in the younger age group (0-14 years) remains at a high level, accounting for 43.12 percent of the total population. However, the proportion of persons belonging to the productive age group (15-64 years) has been in the upward swing, from 51.15 percent in 1970 to 52.66 percent in 1975, and 54.18 percent in 1980. The older age group, likewise, increased from 2.42 percent in 1970 to 2.43 percent in 1975 and 2.70 percent in 1980.

A comparison of the age composition of the population for three censal years is shown in the following table:

**TABLE B — AGE COMPOSITION OF THE POPULATION,
KALINGA-APAYAO: 1970, 1975 AND 1980**

Age Composition	1980		1975		1970	
	Number	Percent	Number	Percent	Number	Percent
Total	<u>185,063</u>	<u>100.00</u>	<u>163,225</u>	<u>100.00</u>	<u>136,249</u>	<u>100.00</u>
0 — 14 years	79,810	43.12	73,308	44.91	63,257	46.43
15 — 64 years	100,263	54.18	85,956	52.66	69,688	51.15
65 years and over	4,990	2.70	3,961	2.43	3,304	2.42

The population of the province as a whole is recently growing older as evidenced by a rise in its median age — 16 years in 1970 to 16 years in 1975 and 17 years in 1980. Its aged-child ratio (number of adults per 100 children) likewise shows an increase of 1.03 percentage points in a span of ten years.

An increase in the percentage of persons in the productive or working ages (15-64 years) coupled by a decrease in the proportion of young people resulted to a decline in its dependency ratio. In 1970, every 95.51 dependents were being supported by 100 persons in the working age group; in 1975, the dependency load was reduced to 89.89 and in 1980, the number of dependents aged 0-14 and 65 and over, was further reduced to 84.58.

The rural dependency ratio (84.68) differs by only 0.97 from the urban ratio (83.71), brought about by a slightly growing older population in the rural areas (Table 2).

A BRIEF ANALYSIS

MARITAL STATUS

Married individuals showed a downward-upward trend, from 51.27 percent in 1970 to 50.32 percent and 52.50 percent in 1975 and 1980, respectively. Similarly, never married persons also followed an up and down pattern; from 42.43 percent in 1970 to 44.93 percent in 1975 and down to 42.33 percent in 1980. Meanwhile, the proportion of widowed persons decreased by 1.23 percentage points, from 5.46 to 4.23 percent in 1975, then went up to 4.57 percent, or a negligible increase of 0.34 percentage point. Similarly, the divorced or separated declined from 0.68 to 0.46 percent in 1975, then rose slightly to 0.51 percent (Table 4).

A BRIEF ANALYSIS

In the last three censal years married females had comprised more than half of the female populace aged 10 years old and over with 52.04 percent in 1970, 51.83 percent in 1975 and 53.59 percent in 1980. Never married females on the other hand, increased 2.43 percentage points to 41.26 percent in 1975, then dropped to 39.18 percent in 1980. The opposite trend was observed for the widowed which declined 1.76 percentage points to 6.18 percent in 1975 then moved up to 6.47 percent in 1980. Only a small percentage of the female population were divorced or separated, dropping from 1.03 percent in 1970 to 0.66 percent and 0.67 percent in 1975 and 1980. Like their female counterparts, married males have always made up the greatest percentage, sharing 50.51 percent in 1970, 48.89 percent in 1975 and 51.47 percent in 1980. Never married males constituted 46.01 percent in 1970, rose to 48.43 percent in 1975, then dropped abruptly to 45.35 percent in 1980.

The succeeding table shows the classification of the total population 10 years old and over by sex and marital status in the three censal years:

**TABLE C – POPULATION 10 YEARS OLD AND OVER
BY SEX AND MARITAL STATUS,
KALINGA-APAYAO: 1970, 1975 AND 1980**

Sex and Marital Status	1980		1975		1970

A BRIEF ANALYSIS

HIGHEST GRADE COMPLETED

More and more people are becoming aware that higher learning is a must in the upliftment of their socio-economic condition. This was manifested in the increased proportion of persons who attained secondary (12.92% to 16.50%) and collegiate education (3.28% to 5.05%), as well as those who earned an academic degree (1.67% to 2.35%). Correspondingly, decreases were noted in the proportion of persons who had no formal education (15.20% to 13.54%) and of those who only had elementary training (65.06% to 62.07%). The proportion of persons who did not disclose their educational attainment, likewise, declined by 1.38 percentage points from the 1975 figure of 1.87 percent.

The males registered higher proportions of secondary level schoolers (17.62%) and college attenders (5.20%) than the females. The former, likewise, registered a greater proportion of those who only reached up to the elementary level (63.39%), and a lower proportion of persons who had no formal schooling (11.29%). Male academic degree holders made up only 2.01 percent of the male population 7 years old and over.

Among the females, 60.71 percent received elementary training; 15.34 percent continued up to high school; 4.89 percent pursued a college education and 2.70 percent earned a college degree. More than one-tenth (15.87%) of the total female population had no formal education. Only 0.49 percent did not reveal their highest educational attainment, the same proportion as the males.

Of the 88,538 persons schooled in the elementary, only one-third, or 33.63 percent made it through the sixth or seventh grade; 11.19 percent completed the fifth grade; 16.57 percent finished the fourth grade and 38.61 percent, at most the third grade. Of those who reached the secondary level, 69.43 percent finished only the lower years while 30.57 percent went through fourth year. Less than a quarter or 22.34 percent of those who entered college completed the fourth or higher year, while 77.66 percent completed one of the first three lower years (Table 5).

The distribution of private household population 7 years old and over according to highest grade completed in the last two censal years is shown in the succeeding table:

**TABLE D – PRIVATE HOUSEHOLD POPULATION 7 YEARS OLD AND OVER
BY HIGHEST GRADE COMPLETED, KALINGA-APAYAO: 1975 and 1980**

Highest Grade Completed	1980		1975	
	Number	Percent	Number	Percent
Total	142,638	100.00	125,979	100.00
No grade completed	19,315	13.54	19,146	15.20
Elementary	88,538	62.07	81,960	65.06
High school	23,532	16.50	16,283	12.92
College	7,201	5.05	4,130	3.28
Academic degree holder	3,354	2.35	2,104	1.67
Not stated	698	0.49	2,356	1.87

A BRIEF ANALYSIS

LITERACY

The government's all out effort to give its inhabitants an equal opportunity to receive a formal education, even to those in the farthest part of the country, has paid off. Consequently, the literacy rate for private household population 10 years old and over in Kalinga-Apayao moved up from 70.50 percent in 1970 to 74.00 percent, or an increase of 3.50 percentage points within a decade.

The accessibility of more schools in the urban than in the rural areas brought about a higher percentage of literates in the former than in the latter (84.97% for urban and 72.72% for rural areas). The male population turned out more literates than their female partners did. In the urban areas alone, 86.59 percent of the males were literate compared to 83.38 percent for the opposite sex. The respective figures for the rural areas were 74.80 percent and 70.56 percent.

In general, the males stood out with a provincial literacy rate of 75.99 percent compared with the females' 71.94 percent (Table 6).

A BRIEF ANALYSIS

LANGUAGE OR DIALECT

Thirty-one languages or dialects are reported in the 15 municipalities of the province, with Ilocano predominating as the dialect generally spoken by 41.81 percent of the 33,307 private households. This is followed by Kalinga at 36.43 percent; Apayao (Isnég), 10.37 percent; Bontoc, 4.03 percent and Tagalog, 1.24 percent. The rest of the households (6.12%) speak one of the 25 other dialects reportedly spoken in Kalinga-Apayao (Table 7).

GAINFUL OCCUPATION

More than one-half, or 54.84 percent of the 104,412 private household population 15 years old and over are engaged in gainful occupations.

Agricultural, animal husbandry and forestry workers, fishermen and hunters as always top the list of gainful workers, with more than four-fifths, or 83.56 percent. The present proportion, however, is 4.30 and 2.38 percentage points lower than in 1970 and 1975, respectively. Trailing far behind with a slight increase of 1.02 percentage points are the profes-

A BRIEF ANALYSIS

sional, technical and related workers (5.11%). Third in rank and retaining its post with 4.47 percent is the occupation group composed of production and related workers, transport equipment operators and laborers. Meanwhile, service workers moved up to 2.35 percent; clerical and related workers to 1.87 percent and sales workers, to 1.74 percent. Workers not classifiable by occupation dropped to 0.52 percent while administrative, executive and managerial workers remain constant at 0.38 percent.

More than half of the urban and rural private household population 15 years old and over are gainful workers constituting 52.92 percent and 55.06 percent, respectively. Rural workers are mostly employed as agricultural, animal husbandry and forestry workers, fishermen and hunters, with 88.58 percent compared to 38.44 percent of the urban workers in the same occupation group. On the other hand, the urban areas have a higher percentage of service workers with 9.18 percent while their rural counterparts constitute only 1.59 percent (Table 8).

Comparative changes in the proportion of workers engaged in various gainful occupations from 1970 to 1980 are reflected in the following table:

**TABLE E – GAINFUL WORKERS 15 YEARS OLD AND OVER
BY MAJOR OCCUPATION GROUP,
KALINGA-APAYAO: 1970, 1975 AND 1980**

Major Occupation Group	1980		1975		1970	
	Number	Percent	Number	Percent	Number	Percent
Total	<u>57,260</u>	<u>100.00</u>	<u>47,378</u>	<u>100.00</u>	<u>52,350</u>	<u>100.00</u>
Professional, technical and related workers	2,924	5.11	1,938	4.09	2,201	4.20
Administrative, executive and managerial workers	218	0.38	181	0.38	219	0.42

Production and related workers, transport equipment operators and laborers	2,560	4.47	1,919	4.05	1,885	3.60
Workers not classifiable by occupation	298	0.52	322	0.68	186	0.36

A BRIEF ANALYSIS

INDUSTRY

More than four-fifths or 83.81 percent of the gainful workers in Kalinga-Apayao derive their sustenance from agriculture, fishery and forestry, with the workers concentrating mainly on agricultural crops production (98.54%). Community, social and personal services although ranking second, account for only 9.59 percent of the total gainful workers. Education services (35.88%), public administration and defense (34.26%), and personal and household services (13.99%) are the three leading sources of employment in this industry group. The rest of the industries have less than 2 percent each to their credit: wholesale and retail trade, 1.88 percent; construction, 1.52 percent; transportation, storage and communication, 1.07 percent; manufacturing, 0.64 percent; activities not adequately defined, 0.59 percent; financing, insurance, real estate and business services, 0.49 percent; mining and quarrying, 0.26 percent and electricity, gas and water, 0.15 percent (Table 9).

A BRIEF ANALYSIS

MIGRATION

Out of the 153,602 private household population five years old and over 94.86 percent resided in the same municipality where they had lived on May 1, 1975. About 3.23 percent moved across provincial boundaries (inter-provincial migrants) while 1.65 percent moved to another municipality within Kalinga-Apayao. A very small percentage of the population were former residents of foreign countries (0.26%). In terms of inter-provincial migration, the proportion of males (1.69%) was slightly higher than the females (1.54%). Correspondingly, intra-provincial migrants or those who transferred from one municipality to another within their home province, were composed of more males than females, 0.86 percent for the former and 0.79 percent for the latter (Table 10).

A BRIEF ANALYSIS

TYPE OF BUILDING

Most (98.26%) of the 33,307 households in Kalinga-Apayao occupy single houses. Less than one percent (0.96%) dwell in improvised structures (barong-barong) and 0.54 percent, in duplex. An insignificant 0.24 percent reside in one of five other types of building (Table 1).

Apartment/accesoria/condominium/row house, other housing units (natural shelter, boat, etc.) and other collective living quarters (military camp, etc.) are entirely occupied by rural dwellers. Out of 319 households in improvised structures 314 or 98.43 percent are located in the rural areas. A higher proportion of households in single houses (89.89%) and duplex (70.95%) are also rural households.

The following table provides an insight into the housing conditions of Kalinga-Apayao after a lapse of ten years:

**TABLE F – NUMBER OF HOUSEHOLDS IN OCCUPIED DWELLING UNITS
BY TYPE OF BUILDING, KALINGA-APAYAO: 1970 AND 1980**

Type of Building	1980		1970	
	Number	Percent	Number	Percent
Total	<u>33,307</u>	<u>100.00</u>	<u>23,981</u>	<u>100.00</u>
Single house	32,729	98.26	23,241	96.91
Duplex	179	0.54	193	0.80
Apartment/accesoria/condominium/row house/etc.	10	0.03	4	0.02
Improvised (barong-barong)	319	0.96	431	1.80
Commercial/industrial/agricultural	25	0.08	108	0.45
Other housing unit: natural shelter, boat, etc.	5	0.01	—	—
Hotel, lodging house, dormitory, etc.	10	0.03	—	—
Institutional (hospital, convent, school dormitory, etc.)	—	—	4	0.02
Other collective living quarters (military camp, etc.)	30	0.09	—	—

TYPE OF OCCUPANCY

Of the 33,307 households in Kalinga-Apayao, 94.13 percent own the dwelling units they occupy. Only 4.10 percent are rent-free occupants; 1.69 percent, tenant/lessee and 0.08 percent, subtenant/sublessee.

A higher proportion of households owning the dwelling units they occupy is noted in the rural areas (95.60%) while their urban counterparts have 81.12 percent. Correspondingly, the proportions of households occupying dwelling units for free and tenant/

A BRIEF ANALYSIS

lessee are higher among urban dwellers at 11.76 percent and 7.12 percent, respectively (Table 1).

CONSTRUCTION MATERIALS OF ROOF AND OUTER WALLS

Of the total number of households, 43.86 percent have dwelling units with galvanized iron and 42.30 percent have cogon/nipa as their roofing. Only 0.26 percent are in dwelling units with roof made of tile/concrete/brick/stone; 0.32 percent, makeshift/salvaged materials and 0.03 percent, asbestos. Approximately 13.23 percent of the households utilize other roofing materials such as anahaw (Table 2).

A higher proportion of the urban households reside in dwelling units roofed with galvanized iron (74.24%) compared to 40.42 percent of the rural households. Among the latter, 44.63 percent use cogon/nipa while among the former only 21.71 percent use the same roofing material. Similarly, other roofing materials are utilized by a higher proportion of rural (14.38%) than urban households (3.10%).

Most of the households utilized bamboo/sawali (46.42%) for the outer walls of their dwelling units; 30.76 percent use wood/plywood; 9.42 percent, mixed tile/concrete/brick/stone and wood/plywood; 5.30 percent, cogon/nipa and 4.09 percent, galvanized iron/aluminum. Very few households in the province live in dwelling units with outer walls of tile/concrete/brick/stone (1.80%) or of other materials such as anahaw (1.55%). A very small number of households use makeshift/salvaged materials (0.49%) and asbestos (0.17%) for their outer walls.

YEAR BUILT

More than two-fifths (45.74%) of the total households occupy dwelling units built in 1976-1980. A little less than one-fifth or 24.52 percent live in structures built in 1971-1975; 16.84 percent, in 1961-1970; 8.15 percent, 1951-1960 and 3.06 percent, 1942-1950. About 1.69 percent of the occupied dwelling units are of pre-war vintage, i.e., built in 1941 or earlier (Table 2).

FLOOR AREA OF DWELLING UNIT

Almost two-thirds (66.07%) of the private households live in dwelling units with floor area less than 30 square meters. More than one-fourth (25.88%) occupy 30-49 square-meter dwelling units; 3.98 percent live in units having a floor area of 50-69 square meters and 2.37 percent, of 70-99 square meters. A few households have more spacious dwelling units with floor area ranging from 100-149 square meters (0.90%); 150-199 square meters (0.21%); 200-249 square meters (0.14%) and from 250 square meters and over (0.45%). (See Table 3.)

TENURE OF OWNER-OCCUPANT WITH RESPECT TO THE LAND

Of the 31,351 households in owner-occupied dwelling units, 86.68 percent also own the land where the structure is erected. The tenure of the remaining owner-occupants are as follows: 4.79 percent, lessee or sublessee; 3.91 percent, farm lessee/agricultural tenant of landowner; 1.85 percent, other legal tenure and 2.77 percent, no tenure such as squatter, etc. (Table 4).

A BRIEF ANALYSIS

KIND OF LIGHTING FACILITIES

Kerosene remains as the most commonly used lighting facility, registering 85.15 percent of the total households. Other kinds, such as wax, is utilized by 8.36 percent; electricity, by 3.98 percent and liquefied petroleum gas (LPG), by 2.45 percent. Oil, the least utilized lighting facility, is used by 0.06 percent, all of which are rural dwellers.

Most of the households in the urban and in the rural areas use kerosene – 72.20 percent for the former and 86.61 percent for the latter. More than one-fourth (25.55%) of the urban dwellers utilize electricity; 1.92 percent use liquefied petroleum gas and 0.33 percent, other lighting facilities. For rural residents, 9.28 percent use other lighting facilities; 2.51 percent use liquefied petroleum gas and 1.53 percent, electricity (Table 5).

SOURCE AND USE OF WATER SUPPLY

Almost one-third of the total households (29.80%) get their water supply for drinking from the dug well; 27.35 percent utilize water from spring; 14.80 percent, from faucet, community water system; 12.59 percent, from tubed/piped shallow well; 12.49 percent, from tubed/piped deep well and 2.97 percent, from lake, river, stream, irrigation, etc. No household in Kalinga-Apayao use rain water for drinking. For kitchen use, the proportions are distributed in the same order as for drinking purposes, each with a very slight difference in percentage points: 29.62 percent for dug well; 27.04 percent, spring; 14.70 percent, faucet, community water system; 12.54 percent, tubed/piped shallow well; 12.40 percent, tubed/piped deep well and 3.70 percent, lake, river, stream, irrigation, etc. Rain water, likewise, is not utilized for kitchen use. For washing clothes, however, almost one-third, or 32.89 percent of the households get water from the lake, river, stream, irrigation, etc. One-fifth (20.95%) use spring; 16.59 percent, dug well; 10.42 percent, tubed/piped shallow well; 9.53 percent, faucet, community water system and 9.56 percent, tubed/piped deep well. A few households (0.06%) use rain water for washing clothes (Table 6).

COOKING FUEL

Wood or charcoal, being abundant in the province, is utilized by a large majority of the households (89.65%). Only 6.62 percent use kerosene; 1.73 percent, other; 1.62 percent, liquefied petroleum gas (LPG) and 0.38 percent, electricity. The predominant use of wood or charcoal as cooking fuel is observed in both urban and rural areas (77.96% of the urban households and 90.97% of the rural households). Liquefied petroleum gas as well as kerosene are more commonly used among the urban households (9.51% and 9.04%, respectively). About 6.35 percent of the rural households use kerosene for cooking and 0.73 percent, liquefied petroleum gas (Table 8).

TOILET FACILITIES

More than two-fifths of the private households have flush or water-sealed toilets (28.20% use the water-sealed, other depository type and 16.06 percent, the water-sealed with sewer/septic tank). Nearly one-third (32.55%) of the total households in the province still use the open pit and 11.27 percent, the closed pit (antipolo, etc.). A small percentage (1.16%) use other types (pail system, etc.) while 10.76 percent lack toilet facilities.

Urban households have better toilet facilities than their rural counterparts. More than one-half (55.21%) of the urban residents have water-sealed, sewer/septic tank toilets; 15.36 percent use the water-sealed, other depository; 8.27 percent, the closed pit; 17.05 percent,

A BRIEF ANALYSIS

the open pit and 0.36 percent, other. Among rural households, 34.30 percent use the open pit; 29.66 percent, water-sealed, other depository; 11.61 percent, closed pit; 11.63 percent, water-sealed, sewer/septic tank and 1.25 percent, other type. Approximately 3.75 percent of the urban and 11.55 percent of the rural households lack toilet facilities (Table 7).

OWNERSHIP OF RADIO, TELEVISION SET AND REFRIGERATOR/FREEZER

Ownership of household appliances is a luxury rather than a necessity for majority of the households in the province. Less than half (48.92%) of the 33,307 households own radios; an insignificant 0.79 percent, television sets and 1.65 percent, refrigerators or freezers. The proportion of households owning these appliances is higher in the urban than in the rural areas. Three-fifths (60.71%) of the urban households own radios; 5.41 percent have television sets and 8.15 percent are with refrigerators or freezers. Among the rural households 47.59 percent have radios; 0.27 percent have television sets and 0.92 percent, refrigerators or freezers (Table 9).

Compared to 1970, the standard of living and economic condition in the province have considerably improved. A decade ago only 20.89 percent of the total households owned radios; 0.09 percent, television sets and 0.50 percent, refrigerators or freezers. Households with radios made up 43.62 percent in the urban and 19.19 percent in the rural areas. Only 0.24 percent of the urban and 0.08 percent of the rural households had television sets while refrigerators or freezers were owned by 4.47 percent and 0.20 percent of the respective households.

HOUSING CENSUS QUESTIONS
(Encircle Code or Enter Appropriate Code If Required)

6	Bldg	DU	HH
12			
21			

H-1 to H-4 are to be asked only of the first sample household in every building (Repeat entries for other sample households in this building.)

H-1 What type is this building/house?

- 1 Single House
- 2 Duplex
- 3 Apartment/Accessorial/Condominium/Row house/etc.
- 4 Improvised (shanty-town)
- 5 Commercial/Industrial/Agricultural
- 6 Other housing unit: natural shelter, boat, etc.
- 7 Hotel, lodging house, dormitory, etc.
- 8 Institutional (hospital/convent/school)
- 9 dormitory/penal institution
- Other collective living quarters (refugee camp, legation camp, military camp, etc.)

H-2 What construction material is the roof made of?

- 1 Galvanized Iron/Aluminum
- 2 Tile/Concrete/Brick/Stone
- 3 Asbestos
- 4 Cogon/Nipa
- 5 Make-shift/Salvaged Materials
- 6 Other (bamboo, etc.)

H-3 What construction material are the outer walls made of?

- 1 Galvanized Iron/Aluminum
- 2 Tile/Concrete/Brick/Stone
- 3 Wood/Plywood
- 4 Mixed Tile/Concrete/Brick/Stone and Wood/Plywood
- 5 Asbestos
- 6 Bamboo/Sawali
- 7 Cogon/Nipa
- 8 Make-shift/Salvaged Materials
- 9 Other (bamboo, etc.)

H-4 When was this building house built?

- 1 1980
- 2 1979
- 3 1978
- 4 1977
- 5 1976
- 6 1971 - 1975
- 7 1961 - 1970
- 8 1951 - 1960
- 9 1942 - 1950
- 0 1941 or earlier

CERTIFICATION

I HEREBY CERTIFY that the data set forth in this form were personally obtained by me in accordance with the rules and regulations promulgated by the National Census and Statistics Office.

Name of person accomplishing this form
(Printed Name & Sign)

Title _____
Date _____ 1980

PERSONS TO BE ENUMERATED AS MEMBERS OF COLLECTIVE HOUSEHOLDS

1. HOTELS, LODGING HOUSES, DORMITORIES, ETC.

- a. Proprietor, manager and employees living in the establishment, except those living therein with their own families and those who usually go home to their respective families at least once a week.
- b. Permanent lodgers/boarders (those who have stayed or expect to stay for one year or longer) and those temporary lodgers/boarders who have stayed for six months or longer as of May 1, 1980 or have been away from their own families for the same period. However, exclude those who usually go home at least once a week.
- c. Lodgers/boarders who are not residents of the Philippines and who have been in the Philippines for one year or longer as of May 1, 1980, or expect to stay in the Philippines for one year or longer. However, exclude those who have temporary place of residence elsewhere in the Philippines to where they usually go home. Exclude also diplomatic representatives or UN, ILO or USAID officials who, like diplomatic representatives, are subject reassignment to other countries after their tour of duty in the Philippines, and members of their families.

2. HOSPITALS AND NURSES' HOMES

- a. All patients, including those just confined, in mental hospitals, leprosaria or leper colonies, pavilions of tuberculosis sanatoria where patients stay more or less permanently, and rehabilitation centers for drug addicts.
- b. Patients who have been confined for six months or longer as of May 1, 1980 in other kinds of hospitals and in wards for temporary confinement in tuberculosis sanatoria.
- c. Nurses in nurses' homes who do not usually go home at least once a week.
- d. Staff members and employees living in hospitals/nurses' homes, except those living therein with their families and those who usually go home at least once a week.

3. WELFARE INSTITUTIONS (Homes for the Aged and Infirm, Orphanage, Boys' Town, etc.)

- a. All inmates or wards, including those just confined.
- b. Staff members and employees living in the institutions, except those living therein with their families and those who usually go home at least once a week.

4. CORRECTIVE AND PENAL INSTITUTIONS

- a. All prisoners in national prisons and reformatories (welfareville).
- b. Prisoners and detainees in provincial or city/municipal jails who have been continuously confined for six months or longer, including confinement elsewhere, as of May 1, 1980, or those whose sentence is for six months or longer even if the sentence is on appeal.
- c. Staff members and employees living in the institutions except those living therein with their own families and those who usually go home at least once a week.

5. CONVENTS, NUNNERIES, SEMINARIES, AND BOARDING SCHOOLS

- a. Monks, priests, ministers, nuns, seminarians etc. However, priests or ministers of sects other than the Roman Catholic Church who live in the convent or house close to church or chapel with their own families are to be excluded (private households).
- b. Students in boarding schools (schools where students are required to stay in the school campus).
- c. Staff members, employees and helpers living in the premises, except those living therein with their own families and those who usually go home at least once a week.

6. MILITARY CAMPS AND STATIONS (PC, Army, Air Force and Navy): PMA

- a. Officers and enlisted men/draftees, except those who live in the premises with their own families and those who usually sleep most nights with private households or in hotels, lodging places or dormitories. Include those belonging to the unit in the camp or station who are away on military operation or mission or aboard naval vessels, except those whose families are living in the camp or station (their own families will report them).
- b. PMA cadets and trainees whose training is for six months or longer.
- c. Detainees who have been continuously confined for six months or longer, including confinement elsewhere, as of May 1, 1980.
- d. Civilian employees living in the camp or station, except those living therein with their own families and those who usually go home at least once a week.

7. LOGGING, MINING AND CONSTRUCTION/PUBLIC WORKS CAMPS, PLANTATIONS AND AGRICULTURAL/FISHERIES EXPERIMENTAL OR BREEDING STATIONS, ETC.

- a. Proprietor, manager, contractor and employees who do not live with their families in the premises and are supplied lodging (beddings, etc.) and/or meals by the company, firm, contractor or agency, except those who usually go home at least once a week.

8. OCEAN-GOING AND INTERISLAND/COASTAL VESSELS OR DEEP-SEA FISHING VESSELS

- a. Filipino crew members of ocean-going vessels (whose own families live in the Philippines) at port as of 12:01 A.M. May 1, 1980, except those who usually go home to their own families in the Philippines at least once every six months.
- b. Any crew member of interisland/coastal vessel or deep-sea fishing vessel at port on any day during the enumeration, if the crew member has no home other than the vessel.

9. REFUGEE CAMPS

- a. Filipino citizens working and living inside the camps.
